EDUCATION

BAHCESEHIR UNIVERSITY

Bachelor of Science in Software Engineering (Double-Major)
2022-2027(January)

Bachelor of Science in Computer Education and Instructional Technology
2021-2026

UNIVERSIDAD SAN JORGE

Software Engineering
2025-2026 Fall Semester - Erasmus

PROJECTS

Custom 2D Game Engine – C++ & SDL

- Built a modular 2D game engine with rendering, input, collision, physics, and scene management systems, supporting two playable games.

Doomsday – 3D Space Runner - Java & Processing

- Developed a 3D runner/shooter featuring object pooling, custom geometry, collision detection, and dynamic difficulty.

Instrument Duel - JavaScript - HTML5

- Implemented a browser-based rhythm game with timing-based input, audio-driven mechanics, scoring, and progression systems.

The Lost & Found Pet System – Python & SQLite

- GUI-based desktop application development
- Database design and integration
- Modular Python architecture
- Collaborative software development

ABOUT ME

Software Engineering student with hands-on experience in frontend development, software testing, backend systems, and game technologies. Interested in building reliable software and contributing to collaborative development teams.

WORK EXPERIENCE

FRONTEND DEVELOPER INTERN

Ideasoft (2025 March - 2025 August)

- Built responsive WordPress and Elementor pages with reusable UI components.
- Implemented animations, design updates, and on-page SEO improvements.
- Collaborated through daily meetings, task planning, and sprint sessions.

TRAINING & PROJECT-BASED EXPERIENCE

SOFTWARE ENGINEERING TRAINING PROGRAM — ONGOING

TNC Group – Software Persona | Jul 2026 – Aug 2026

- Trained in SDLC, Agile and Waterfall processes, and functional, integration, UAT, and regression testing.
- Designed test scenarios and practiced defect tracking and test management with Jira.
- Performed API testing with Postman and basic SQL exercises; currently progressing to mobile, automation, and performance testing.

TEST ENGINEERING INTERNSHIP PROGRAM — ONGOING

Egemsoft | Jul 2026 | 30-Day Program

- Participating in project-based training covering JavaScript web development, mobile applications, SQL, and backend development.
- Completing practical assignments and projects for each technical module.

TECHNICAL SKILLS

- Languages: Java, C#, C++, JavaScript, Python
- Development: Spring Boot, React, HTML/CSS, REST APIs
- Game Technologies: Unity, Unreal Engine, SDL, Processing
- Testing & Tools: Postman, Git, GitHub
- Databases: SQL, SQLite

LANGUAGES

- Turkish (Native)
- English (Advanced)
- Spanish (A1-Certificate)
